

CITIZENS LEAGUE CIVIC POLICY AGENDA

To develop and advance a new model for policy-making based on the belief that all individuals and organizations, not just government, have a role to help develop and implement public policies that serve the common good.

Goal 1: Ensure that the Policy Advisory Committee is broadly representative of the Citizens League and those engaged in different aspects of our work.

Goal 2: Set the course for the Policy Advisory Committee to evolve into the central place to help formulate, integrate and evaluate all processes for policy engagement.
